SORA ENTERPRISE

Exclusive Partner West and Central Africa: Videray Technologies & NIRLAB

OUR COMMITMENT TO A SAFER AFRICA

At SORA Enterprise, we support governments, security forces, customs and critical infrastructure in modernizing their detection and analysis capabilities.

We provide cutting-edge technologies to:

- Detect invisible threats
- Securing borders
- Strengthen field operations
- Protecting populations

Our vision:

A safer Africa through technological innovation.

WHO ARE WE?

PROFILE CORPORATE

Presence : West and Central Africa
Specialization: Safety, Inspection, Analysis
Expertise: Mobile & Smart Solutions

CUSTOMERS

- **Customs**
- **Armed Forces**
- **Security forces**
- **Airports**
- **Industries**

OUR STRENGTHS

- Operational excellence
- Field responsiveness
- Exclusive partnerships
- Certified & proven solutions
- Ongoing support

TECHNOLOGY PARTNERS

VIDERAY TECHNOLOGIES INC

World leader in handheld X-ray scanners

Key points:

- Penetration up to **30 mm of steel**
- Real-time HD imaging
- Military ruggedness
- Deployed in more than 70 countries

NIRLAB

Next-generation portable chemical analysis

Key points:

- Instant identification of **350+ substances**
- Narcotics / Explosives
- falsified medicines
- Non-destructive analysis
- Built-in AI

SOLUTIONS

PX1 — HANDHELD BACKSCATTER SCANNER

Fast, mobile and non-intrusive inspection

Advantages:

- Detection of weapons, explosives, drugs
- Visualization through wood, marble, rubber, steel
- Instant HD images
- Ultra-portable, ergonomic

Ideal for:

Customs - Airports - Checkpoints - Mobile Units

PXT — HANDHELD TRANSMISSION SCANNER

The world's most powerful handheld technology

Advantages:

- Penetration up to **30 mm of steel**
- Ultra High Definition Imaging
- Accurate detection of metal anomalies
- Designed for sensitive environments

Ideal for:

Anti-terrorism - Vehicle inspection - Critical infrastructure - Checkpoints - Mobile units

NIRLAB – PORTABLE SPECTRAL ANALYSIS

Identify. Quantify. Secure.

- Detection of narcotics in seconds
- Drug analysis for harm reduction
- Counterfeit drug detection
- AI database

Ideal for: Customs - Forensic and Anti-Drug - Laboratories

ACCESSORIES

MTP+ – TRANSMISSION PANEL

Double image in a single scan

- Simultaneous backcast + transmission
- 1<minute deployment
- Completely wireless
- Flexible positioning
- Penetration up to **30 mm of steel with PXT and 25 mm with PX1**

Benefit: Complete vision even in complex areas.

VISION RGD TABLET

A secondary wireless viewing station that allows the PXT contactless remote scanner operator and other operators to view images in real time.

PRODUCT BENEFITS

- Cutting-edge technologies
- Mobile & fast solutions
- Enhanced security
- Technical support & certified training
- Immediate deployment
- Improved efficiency
- Crime Prevention
